

KISORE KUMAR R

ARTIFICIALINTELLIGENCEANDDATA SCIENCE

PROFILE

Am a motivated and detailed oriented final year B.Tech student specializing in Artificial Intelligence and Data Science , with skills in Python, C and Java basics. currently exploring front end developement and improving the skills in Python for project works.

PROJECTS

• **Measuring BodyTemperature Using Smart Watch**2022-2023

Using this we can easily analyse the temperature of the body to monitor the fever illness and can connect this to the mobile. The main motive is for creating it to the monitoring of childrens and elder persons temperature.

• **Sentimental Analysis Using Python**

2023

in this we make an analysis of reviews and comments thats comes on social media can be judged and gives the sentimental report of the person who was commented and which was developed on python.

• **Login Session Expiry Using NODE.JS**

2023 - 2024

We create this project for handling session expiry of each and every login which was used to protect the privacy of users and which was created using node.js. this can be used for auto log out timer for the session.

• **Anonymous ChatBox Using Python**

2024

This was created using python which was the chat room which can be used for secret group messages with safety and secure chat.In this we have the auto message deletion system which can ensure the privacy and secureness persons presented in the chat room.
